PAPER WHITE NARCISSUS

Who has not had the pleasure of blooming this charming flower in a dish or bowl with the bulbs planted among pebbles and covered with water. We have personally selected these oversized, Jumbo bulbs and sell them under our guarantee that each bulb will bloom. Do not confuse them with the small ten cent store bulbs. Three bulbs and a dainty five inch decorated pottery bowl in which to plant them for \$1.00 postpaid.

CHINESE SACRED LILY

Grown just like the Paper White Narcissus in water. The flowers are larger and are white with a golden center. Deliciously fragrant. Two extra large bulbs and a decorated bowl for \$1.00 postpaid.

WINTER BOUQUETS

Nothing brightens up a room in the winter more than a bouquet of dried flowers. We grow a large number of different flowers that are suitable for use as dried flowers and will ship you a fine bouquet composed of several different varieties for 50c. Six bouquets for \$2.50 postpaid.

CACTUS

The easiness of culture has increased the popularity of cacti as house plants. The almost endless variety of shapes and types make cactus collecting an absorbing pleasure. We have a great many varieties always on hand, and are making up a large number of gift packages containing a cute little baby cactus and bowl in which to grow it for 50c. If you desire several varieties, we will send a half dozen cacti and bowls for \$2.50. We can send larger specimens at 50c, 75c, and \$1.00 without the bowls.

YELLOW CALLA LILY

One of the easiest grown bulbous plants in the house. The bright green leaves thickly spotted with white are almost as decorative as the rich yellow blossoms. The bulb should be planted in a three or four inch pot and kept in a warm room until the sprout is seen, when the plant should be brought to a sunny window. Each 50c, postpaid.

DID YOU EVER TRY TO GROW CACTI FROM SEEDS ?

They are easily grown from seed and it's perfectly fascinating to watch the tiny little fellows grow. They are so grotesque, they are beautiful. The seed should be planted in sand or very light soil. Press the seed in and cover with a thin layer of soil. Keep damp and warm. They germinate in about four weeks and should not be disturbed until large enough to transplant into pots. The ideal soil for cacti should be two-thirds sand and one-third leaf mold. Send us 25c and we will mail you a good sized package of Cactus seeds. Included in the package will be a few seeds of Yucca and other desert plants. You can grow a whole desert garden from this packet of seeds for 25c postpaid.

CHINESE LANTERNS

The bright orange—red pods of the Chinese Lantern Plant are wonderfully decorative and cheerful in a vase or wall pocket when the snow is flying. \$1.00 for a good sized bunch, postpaid.

HOLIDAY GREENS

We have assembled a number of evergreens, cones and fresh berries from far and near that may be used for interior decoration through the holidays. The box will contain evergreens and cones from the North woods, toyon and pepper berries from California, yaupon berries and foliage from Texas, holly, bittersweet and mistletoe. **Make your own door, window or table decorations.** A good sized box with an ample supply postpaid for \$1.00. If you want more of one item and less or none of some other, just say so, and we will gladly fulfil any individual preference.

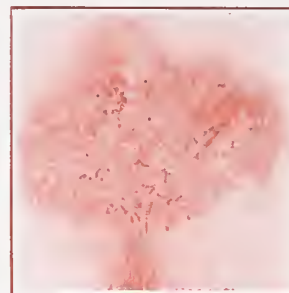

AMARYLLIS BULBS

It has been said that the purchase of an amaryllis bulb is an investment for a lifetime, for there is no good reason why an amaryllis bulb should ever be lost, as it blooms year after year. Plant in a small pot, with the shoulder above the ground, and keep in a warm place until the shoot appears, then bring to a sunny window.

We list three varieties:—
Equestris—Fine brick red blossoms. Each 50c.

Johnsoni—Large crimson blossoms. Each 75c.

Hybrids—these come in a number of different colors—rich velvety red, pink, white with pink stripes, and sometimes pure white. The flowers are enormous and quite striking. Furnished in mixed colors at \$1.00 each, postpaid.

RED RUSCUS WREATHS

Beautiful for use in the cemetery. Large wreaths 16 to 18 inches across for \$2.00 postpaid.

RED RUSCUS

This dried flower which resembles red salvia is most popular for making bouquets for grave decoration. A large bunch for 50c, postpaid.
